GMC Hospital is organizing its 4<sup>th</sup> Annual Healthy Baby Contest on 9<sup>th</sup> April 2010. This is going to be the biggest and memorable event for Moms, Dads, Toddlers and Babies.

## OBJECTIVES: "Know your child better"

The Annual GMC Healthy Baby Contest is held to raise community awareness of the importance of teaching children good health and nutrition habits at an early age. Establishing proper habits starting in early childhood can lead to living a healthy lifestyle. The contest also promotes health consciousness among mothers regarding different factors affecting the health of children and how they could detect diseases in children at an early stage.

We do hope you will not let this excellent opportunity of personal interaction with our doctor's pass by you. We look forward to your presence at event and hope to develop a long-term reciprocally beneficial relationship with you and thus make this event a grand success.

## SELECTION PROCEDURES:
